## THE 5TH BIENNIAL PARTNERSHIP FOR CLEAN INDOOR AIR FORUM

FEBRUARY 21-26 2011 | LIMA, PERU

What do you get when you gather the world's leading household energy and health experts and offer them five days of dynamic workshops, technical presentations and stories from successful programs around the world?

**Unexpected connections. Extraordinary insights. Powerful advancements.**

- **1 day kick-off event, Monday, February 21, 2011:**  
Learn about the government of Peru's national stove campaign.
- **5-day Biennial Forum, February 22-26, 2011:**  
Join us to address topics including stove performance standards and testing, monitoring and evaluation, carbon financing, expanded commercial markets, recent research outcomes, community engagement and much more.

The Partnership for Clean Indoor Air is a global community of over 350 individuals, nonprofits, governments, research organizations and businesses. Each PCIA Forum showcases the power of networking to accelerate action that reduces exposure to indoor air pollution from cooking and heating practices—and ultimately improves the health, livelihood, and quality of life for millions of people.
